ABHAY SHARMA

Full Stack Developer | Delhi, India | +91 98765 43210 | abhay.sharma@example.com | github.com/abhaysharma

PROFESSIONAL SUMMARY

Motivated Full Stack Developer with hands-on experience building web applications using React.js, Node.js, Express.js, and MongoDB. Interested in AI-powered applications and backend development, with a strong focus on clean APIs, responsive interfaces, and practical problem solving.

TECHNICAL SKILLS

Languages	JavaScript, HTML5, CSS3, SQL
Frontend	React.js, React Router, Axios, Responsive UI
Backend	Node.js, Express.js, REST APIs, JWT, Cookies
Database	MongoDB, Mongoose
AI / Tools	Generative AI APIs, Git, GitHub, Postman, VS Code

PROJECTS

AI Interview Prep & Assessment Platform | React.js, Node.js, Express.js, MongoDB, Generative AI

• Built a platform that accepts candidate information and resumes, extracts resume content from PDF files, and generates AI-powered interview reports.
• Designed REST APIs for authentication, interview workflows, and report storage.
• Implemented secure cookie-based authentication and MongoDB data persistence.

E-Commerce Platform with AI Recommendations | MERN Stack

• Developed product browsing, search, cart, authentication, and order-management features.
• Planned an AI recommendation layer to personalize product discovery based on user behavior and product context.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science — ABC Institute of Technology, Uttar Pradesh

Expected Graduation: 2027 | Relevant Coursework: Data Structures, DBMS, Operating Systems, Computer Networks

EXPERIENCE / TRAINING

Full Stack Development Trainee — Academic / Personal Projects | 2025–Present

Built and deployed multiple full-stack applications, practiced API development and database design, and integrated third-party services into web applications.

ACHIEVEMENTS & INTERESTS

• Strong interest in Generative AI and AI-assisted software development
• Regularly practices JavaScript, backend development, and problem solving
• Interested in building scalable, production-oriented web applications
